

# ATTENTION: SNAP Time Limits Suspended in Oregon During Pandemic

**Starting April 1, 2020, the SNAP time limits for Able Bodied Adults Without Dependents (ABAWDs) are suspended in EVERY COUNTY IN OREGON.**

This means that no one considered an ABAWD (an adult ages 18-50 who does not have a child on their SNAP case) needs to meet work requirements in order to continue receiving SNAP.

No SNAP benefits will be reduced or cut off for participants because of not meeting work requirements during this time. The time limits will not be reinstated until the COVID-19 state of emergency is over.

If you have been cut off of SNAP because of time limits in the past, please reapply as you may now be eligible.
